PROFILE

A fourth-year Information Technology student passionate about web development and UX/UI design. Experienced with Python, HTML, CSS, and JavaScript. Known for fast learning ability and enthusiasm in exploring practical skills in real working environments.

EXPERIENCE

UX/UI Design — Class Project: Web App 2024

- Designed a mobile fashion ordering application using Figma
- Focused on user flow, wireframing, and interactive prototyping
- Gained hands-on experience in UI/UX design for mobile platforms

Backend Developer (Intern) — Class Project: Web & App Data Management System 2023

- Developed a basic database system to store and manage user data
- Integrated data between the database and both web and mobile applications
- Practiced data retrieval and display using SQL and backend logic

EDUCATION

Bangkok University 2023-2025

The Information Technology program develops both technical and management skills through hands-on learning and modern tools, preparing students for careers in IT and tech entrepreneurship.
